

BlackBerry Z10 Motherboard Assembly Replacement

Replace the motherboard.

Written By: Daniel Edwards

INTRODUCTION

Use this guide to replace the motherboard on your BlackBerry Z10.

TOOLS:

- [T2 Torx Screwdriver](#) (1)
- [T4 Torx Screwdriver](#) (1)

PARTS:

- [1 x Blackberry Z10 Logic Board](#) (1)
-

Step 1 — Motherboard Assembly

- This is the easiest repair I've completed yet.

Step 2

- The rear panel pops off easily. Grab the opening at the bottom and work your way around.

Step 3

- There is NO adhesive on this device. NO ADHESIVE!!

Step 4

- There's about 7 screws here. Remove the black circle sticker to uncover a hidden screw.

Step 5

- Disconnect the logic board connector near the top and left side.
- Underneath the connector on the left side, there's two other connectors. Disconnect those.
- Remove the logic board and viola, you're done! Easiest repair in life!! To reassemble follow this guide in reverse. Happy repairing!

To reassemble your device, follow these instructions in reverse order.
